

HARDWARE REPAIR SERVICES

All technology equipment is not disposable

As one of our core services we employ highly competent service repair technicians to offer our managed clients alternatives to replacement for failed equipment. Our team is fully versed in server, desktop, laptop and printer repairs. Team Networks provides comprehensive PC hardware maintenance for your workstations.

A call-out for service for our managed clients will consist of a guaranteed response time with estimates to fix or replace, re-installation of the operating system or software upgrade if necessary and reconfiguration for your network.

TEAM   
Better Solutions. Better Business.
